

### Apply here

#### Start date

Flexible

#### Duration

6 months

#### Languages

Good spoken and written English levels are required (B2 onwards)

#### Location

##### London, England

London is both the capital and largest city in England and the United Kingdom. One of the world's most visited cities, it is steeped in history and culture with iconic buildings such as the Houses of Parliament, The Tower of London and Buckingham Palace. Modern attractions include the Harry Potter Studios, The London Eye and the Shard. A city full of cultural diversity, there is always something going on with activities, food, shops and nightlife to suit all tastes.

#### Are you eligible?

You are eligible for an ESPA internship if you are a registered student or have graduated within the past two years and have access to some form of grant funding

#### Benefits

See website for details of all ESPA benefits. For all internships over 6 months, additional benefits will be paid. Details available at interview.

### Role

This is a fantastic opportunity for a dynamic final year student or recent graduate looking to further develop their financial management skills. Mentored throughout by a team of global experts in independent price verification (IPV), you will gain experience in a broad range of tasks to help the host company manage valuations services across their suite of asset classes. The host company prioritises partnering with clients, so this would be a great opportunity to use your communication skills to converse with staff at major financial institutions. Not only will this be a fantastic CV addition, but a strong performance in this internship will lead to being considered for a permanent role with the host company.

### Tasks

- Liaise with UK and international clients both remotely and in person (**please note this may require international travel**)
- Design, test and implement new products
- Review regulatory and market developments, updating best practices accordingly
- Assist clients with data enquiries, deep-dive analysis and price versus trade review
- Calibrate and monitor data analytic processes
- Complete customers' orders and requests.

### Desired Skills

- Be a final year student or graduate in a financial, mathematical or scientific subject
- Have a keen interest and understanding of financial services
- Be familiar with financial markets and instruments
- Strong and confident communication skills
- Be highly numerate

#### Desirable but not essential:

- Familiarity with derivatives contracts
- Experience of working for financial institutions

### The Host Company

The host company is a highly experienced, client-focused IPV provider. Composed of an expert team in financial services, they are committed to advancing IPV services for Over-the-Counter (OTC) derivative markets as part of a comprehensive risk management framework. With a focus on creativity, adaptability and rapid response, their client-based approach offers extensive coverage across all major financial asset classes. With over 150 years of combined experience in trading, product control and price verification, the successful candidate is sure to gain a wealth of invaluable knowledge and skills within this company.
