

KraftHeinz

WE PROVIDE THE PLAYING FIELD. YOU CHANGE THE GAME.

Intern (m/f/d) Logistics as of February 2021

What to expect:

- An exciting 6-month internship with challenging projects that you drive forward
- A dynamic and international working environment with strong brands
- Regular feedback to continuously develop your professional and personal skills
- Attractive and fair remuneration

If brief, you will be responsible for:

- Supporting the area of supply chain with reporting, data management and analysis
- Supporting delivery processes and cost analysis
- Introducing and implementing offers, tests and implementations of potential solutions within the entire network
- Detailed analysis of data, process maps and problems
- Participation in projects and presentations

Your qualifications:

- Advanced bachelor's and master's degree in logistics, engineering, business administration or similar
- Ideally, first practical experience in the form of internships or student jobs
- High level of commitment and analytical thinking
- Strong communication skills and a structures and independent way of working
- Good MS Office skills, especially excellent Excel skills
- Fluent English skills
